TECHNICAL SKILLS

- JavaScript, React JS, Redux, Java, Html5, CSS3, Tailwind CSS
- Git, Github, Firebase (for Backend), vs code, Responsive Web Design, Problem Solving, Attention to Details

WORK EXPERIENCE

HAMD: *Created an E-commerce web App with advanced Filtrations System, Admin Dashboard, User Dashboard, and with payment integration. Prioritized on scalability, performance and user experience.*

- Developed this web app using technologies like react.js, JavaScript, Tailwind CSS, Firebase.
- Built the filtering system logic, integrated with the backend, and ensured quality results.
- Increased user engagement by 30% through efficient and user-friendly product filtering and UI.
- LIVE PROJECT: https://hamd-ecom.web.app

Weather App: *Developed a web app that shows today's highlights, 3-hourly and daily forecast*

- Created a responsive weather web application using React.js, JavaScript, CSS, and Tailwind CSS.
- Designed the UI, integrated with the Weather API, and Implemented features like location detection and search location.
- Improved app performance by optimizing API calls and enhanced user experience with intuitive UI design.
- LIVE PROJECT: https://weather-app-7860.web.app

Netflix Clone: *Built a Netflix clone with HTML, CSS, and JavaScript featuring a clean UI and dynamic trailer viewing through a modal.*

- Developed the user interface to mimic Netflix, implemented JavaScript for interactive features, integrated with API, and used modals for trailer previews.
- Successfully cloned the UI of Netflix, provided an intuitive user experience for browsing and viewing trailers.
- LIVE PROJECT: https://sarakulsum.github.io/Netflix-Clone/

PORTFOLIO

Personal Portfolio Website: *Designed and developed a personal portfolio website to showcase my projects and skills in front-end development.*

- Created this portfolio using React.js, Javascript, CSS, Tailwind CSS, Framer Motion.
- Developed an Interactive and responsive design with Smooth animations and transitions to increase user 's interactivity and to showcase my creativity, projects and skills
- LIVE PROJECT: https://sara-kulsum.web.app/
